### DETAILED ACTION

Claims 43-74 are pending in the application.

This action is in response to applicants' amendment dated August 22, 2003. Claim 43 has been amended.

The **finality of the last office action is withdrawn** in view of the new ground of rejection applied below. Thus the after final amendment will be entered.

#### *Response to Arguments*

Applicants' arguments filed August 22, 2003 have been fully considered with the following effect:

1. The applicant's amendment and arguments are sufficient to overcome the 35 USC § 112, first paragraph rejection of claims 43-45, 48-65 and 68-73 labeled paragraph 1 in the last office action, which is hereby **withdrawn**.
2. The applicant's amendment and arguments are sufficient to overcome the 35 USC § 112, first paragraph rejection of claims 43-45, 48-65 and 68-73 labeled paragraph 2 in the last office action, which is hereby **withdrawn**.
3. The applicant's amendment and arguments are sufficient to overcome the 35 USC § 102, anticipation rejection of claims 43-74 of the last office action, which is hereby **withdrawn**.

Art Unit: 1624

In view of the amendment dated August 22, 2003, the following new grounds of rejection apply:

***Claim Rejections - 35 USC § 112***

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. Claims 43, 46-56, 59-65 and 68-74 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The definition of heteroaryl where “one of the foregoing fused to phenyl” is not described in the specification for the genus.

Applicant is required to cancel the new matter in the reply to this Office action.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 43, 46-56, 59-65 and 68-74 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The following reasons apply:

Art Unit: 1624

- a) Claims 43, 46-56, 59-65 and 68-74 are vague and indefinite in that it is not known what is meant by the definition of  $R^{xa}$  and  $R^{ya}$  where  $R^{xa}$  and  $R^{ya}$  is **or or** a 5 to 7-membered non-aromatic ring.
- b) Claims 46 and 47 are vague and indefinite in that it is not known what is meant by the definition of  $R^3$ , where the either phenyl within the definition of  $R^3$  can be substituted with the **same substituents defined above**. However, there are no substituents defined above.
- c) Claims 46 and 47 are vague and indefinite in that it is not known what is meant by the definition labeled (D) where “at least two aromatic ring structure that together include from 15 to 20 ring atoms”.

#### *Claim Objections*

6. Claims 44, 45, 57, 58, 66 and 67 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
